

Derval BRIGHT

Liquid highly concentrated wash-power booster with optical brightener. Particularly efficient for natural oils and fat even at temperatures of 60 °C (140 °F). For white textiles made of cotton, polyester and blended fabrics.

Derval BRIGHT TM D 22/12

Characteristics

- Perfect removal of vegetable oils and grease from white textiles.
- Excellent degree of whiteness on cotton and polyester textiles due to specific optical brightener system.
- Perfectly adapted for combination with Derval POWER.
- Easily dosable due to low viscosity and good miscibility in water.
- Indifferent to water hardness.
- Causes no problems in waste water treatment facilities.
